PROBLEMS AND SOLUTIONS IN AUDIO VIDEO PRODUCTION I
8271.HT0C.Y

Length of course:	Yearlong
Grade level:	11,12
Prerequisites or approval required:	Advanced Audio Video Production or instructor approval

Short description of topics and/or key concepts covered in the course:

This hands-on course is an independent study in filmmaking and a continuation of the skills and knowledge acquired in the first two years. Students apply their knowledge to write, direct, produce, and edit several projects including a short documentary project, 1 minute short film, scene replications, and a short film as a class in various crew roles. The course is designed to engage students in a learning environment that builds their skills and knowledge required for various film and television jobs. Students work with professional editing softwares such as **Avid Media Composer, Adobe Premiere Pro and Adobe After Effects.**

Students work with professional equipment: Panasonic HPX, DSLR cameras and lenses, sound and lighting equipment.

This course also offers articulated credit with Austin Communication College upon successful completion of course (5.0 weighted credit).

Certifications available:

Assessments to expect:

By following the production process, students are expected to work in groups and complete an individual edit of video projects in the first semester. Students will also engage in a real-world simulation of a short film project as a class in the second semester. Students end the year with a final digital reel of their work in the class.

Average time required for homework, study, and/or practice per week:

Some work outside of class, depending on the project ideas.

$ - There is a fee involved with this class. Students demonstrating financial need will be provided resources.
